WORKSHOP ABSTRACT

Attendees of this workshop will learn steps to conduct qualitative analysis using inductive and deductive reasoning. During the session, attendees will have the opportunity to conduct qualitative analysis of their transcripts. Encouragement of open sharing through a learning environment will be the focus.

Registrants will need a laptop and chargers. If you have a transcript you are analyzing, you are encouraged to bring a printed copy. Participants will be working in groups, so if necessary, please de-identify your data before arriving.
